

Think Beyond Tomorrow

■ CONNECT PLUS

Our Connect Plus program is a comprehensive service package for offices relying on interconnections between desktop PCs, networks and imaging systems.

DESIGN/INSTALLATION/TRAINING

Through one flat fee of \$_____ per imaging system, Connect Plus places all of the resources of Infomax at your disposal, including:

- Recommendation of imaging system and configuration
- System design
- System installation
- Staff training (includes up to ___ hours or 30 days of instruction, whichever arrives first).
- Complete assembly and testing of equipment, accessories and software
- Delivery and installation of components and software
- Identification of all product placement criteria
- Assignment of ports, defaults and connections
- Fine-tuning of system components
- Free installation of new drivers
- Power protection device installed at no charge as long as equipment is covered by an Infomax maintenance agreement

1010 Illinois Street • Des Moines, Iowa 50314
Phone: 515-244-5203 • Toll-Free: 800-727-4629
Fax: 515-282-9851 • www.infomaxoffice.com

PROFESSIONAL SERVICES

You also have the option of choosing additional expertise from among a depth of services, including:

- Additional system, administration and software training
- Computer/network connection support
- System reconfiguration
- Ongoing application development and training
- Cabling (if available)
- Memory additions and installation
- Additional component installation
- Other services as requested by customer

Three pricing options are available: hourly, by time blocks, and by the materials purchased.
